

OHEL TECHNOLOGIES

We are a global company specializing in Industry 4.0 software and hardware solutions.

OHEL'S SUCCESS

- ✦ 3 Industries
- ✦ 3 Continents
- ✦ 15+ Years of Experience

| Management Support

OHEL engineers will come to your warehouse/workshop for installation to educate your end-users on how our hardware solutions operate.

| Guaranteed Quality

OHEL Technologies will use your existing infrastructure including employee ID cards and tool sets.

| Artificial Intelligence

Through the online application, managers will have a reporting suite where they can utilize our automatic reports or create their own customized reports.

The Most Innovative Tool Solutions

**100% User
Accountability**

**100% Tool And
Equipment Control**

**100% Accuracy in
Real-Time Inventory
Tracking**

The OH-BOX

The OH-BOX is an automated toolbox equipped with radiofrequency identification (RFID) and an end-user monitor.

SPECS

- Reduce downtime and costs
- Reduce foreign object damage (FOD) and foreign material exclusion (FEM)
- Track and control tools at the drawer and item level with assigned user access
- Set calibration and warranty date reminders, and access a suite of reporting features
- You can manage as many tools as you need that can fit into your OH-BOX solution (customizable by height, width, and length)

The OH-Rack

The OH-Rack functions like the OH-BOX by using the same managerial software for assigning user access to compartments, setting calibration and warranty data reminders, and tracking real-time inventory of equipment.

Our automatic item management and tracking solutions provide our clients with the knowledge they need to increase efficiency and safety in their workspace.

THE PILLARS OF OH-EL TECHNOLOGIES

Knowledge is the basis for future growth

Innovation is the engine of development

Interconnectivity is the beginning of efficiency

WE'D LOVE TO BUILD A SOLUTION FOR YOU!
